Home Action items My flows Create Templates Connectors Data Tables Connections

11 Click the "+" for SharePoint

12 Click "Create"

SharePoint helps organizations share and collaborate with colleagues, partners, and customers. You can connect to SharePoint Online or to an on-premises SharePoint 2013 or 2016 farm using the On-Premises Data Gateway to manage documents and list items.

How do you want to connect to your data?

- ☒ Connect directly (cloud-services)
- ☐ Connect using on-premises data gateway (?)
